*Note: We do not have a valid method for quantifying amounts of particular digital resources consumed or downloaded via digital links, referrals, and other access means. We can only get approximate information of the amount of new people visiting our website. However, by visiting any website or web page the viewer must download the page(s) that they visit on their computer with their browser in order to view it. Hence, since we—like any other website—can count a minimal approximation of people visiting that site we can equate that figure with a minimum of one download per person as shown for the minimum digital download tally illustrated.

EBook Draft

World of Universal Income, by Patrick Danahey copyright 2016: This frequently updated work in progress explores the diversity and commonalities of the world’s Universal Income systems past through present via human development and practical implementation perspectives. Additionally, by way of its Introduction and Appendix, the book assembles the most recent developments affecting UI systems in the legal spheres of economic rights laws. These include participatory democracy, economic development, disarmament, poverty eradication, and sustainability conventions—currently dominated in the media by “climate change”—are now understood as being inalienable, inviolable, mutually interdependent, indivisible, and interlinked together. The laws mandate that the solutions sought for one must be worked in tandem with the other conventions without violations. The work also illustrates cited progress in NZ’s national statute laws to accommodate these
changes and developments. To access it from our website, go to the Resources Page where it is listed at the top under Books.

**Electronic Display Presentations**

The electronic display *Exploring the World of Universal Income*, self-running or manually-operated or in plain PDF, can be accessed from our website's Resources page by scrolling down to Videos and Electronic Animated Presentations heading.

**Interactive Tax Transfer Calculator**

On the Economics page of our website (under Distribution of Wealth and Income in the Table of Contents, it is listed with a hyperlink to take you there), there is an interactive Tax Transfer Calculator, together with its explanatory Instructions and Background Manual in PDF. This enables you to calculate and compare how much dole everyone, including the rich, really receives and pays from any given user pay scheme, or uniformed charge on public resources or services including: education, health, GST, science-arts-recreation facilities, levies, tolls, petrol taxes, environmental taxes, local council supported projects, water, and etc.

**MAJOR NATIONAL PUBLIC EDUCATION DISPLAYS SCHEDULE including future showings**

**Display themes**

Theme 1: *Universal Income for a Sustainable Future*: This core theme describes and illustrates the concept of universal income as an expression of existing laws on economic rights and sustainability.

Theme 2: *World of Universal Income*: This theme demonstrates how the concept of universal income has been recognised and/or implemented to varying degrees throughout the world throughout human history.

New electronic presentation (2015): *Exploring the World of Universal Income*: This defines what universal income systems are and then expands further on Theme 2. It also works as a standalone for venues with limited space.

The Trust's thanks go out to the host venues that have very kindly offered suitable space, facilities, and staff time for setting up, monitoring and returning the displays.
